### Voice Commands

Managing the home's automations is even easier, including from your smart watch or the car's infotainment system via Amazon Alexa, Google Assistant or Siri.

**BiDi-WiFi** is the easy, pocket-sized plug-in interface, compatible with all Nice automations for gates and garage doors with Bus-T4 connector.

**BiDi-WiFi and the MyNice Pro programming app make installation configuration easy and efficient.**

### Programme the automation: plug in, set up and go.

Once plugged into the control unit, the BiDi-WiFi interface **automatically generates a Wi-Fi network that allows the automation to be configured** via the **MyNice Pro** app, so all automation programming steps can also be carried out from the comfort of your own vehicle.

### Control the system easily.

Procedures guided by a **wizard** with a **description of the parameters displayed** as in the instruction manual. The **search function** lets you easily find the parameter you want to programme to complete the installation.

**Dedicated cloud** management. You can consult an overview of **interventions, geolocation** via

map and **statistics**, to guarantee your customers a fast and efficient service and rapid response times.

### Firmware update

By recognising the Gate&Door control unit, Nice technology lets you **update the firmware** and **view manuals** to easily access information on the automation throughout the intervention.

**BiDi-WiFi and the MyNice app allow the gate and garage door to be controlled locally or remotely with a smartphone or via a voice assistant, without a gateway.**

### Nice ProConnect.

When BiDi-WiFi is connected to the Nice cloud, via the MyNice app, the end user can enable the installer to manage the automation remotely, setting the times and authorisation level; full or partial automation management.

If enabled, the installer can intervene remotely via the MyNice Pro app, according to the authorisation received.

### TECHNICAL SPECIFICATIONS

Code	Description	Pcs. Pack
<b>BiDi-WiFi</b>	Pocket programming interface	1

### BiDi-WiFi is also available in the following kit:

<b>BIDI-WIFI EXT</b>	1 BiDi-WiFi + 1 IBT4EXT + 1 BusT4 cable + 1 IBT4N	1	<b>CE</b>
----------------------	---	---	-----------

Code	<b>BIDI-WIFI</b>
Power supply	12-24V
Max. power draw (W)	1,2
Wi-Fi interface with internal antenna	802.11b/g/n - 2.4GHz client / AP (P < 20 dBm EIRP)
WIFI Safety	OPEN/WEP/WPA-PSK/WPA2-PSK
Protection class (IP)	40
Operating temperature (°C Min/Max)	-20 ÷ +50
Dimensions (mm)	43.9 x 27.5 x 21h
Weight (g)	15

Wi-Fi

BUS T4

Nice

# BiDi-WiFi Ext

Extends Wi-Fi connectivity for Nice automations beyond the Wi-Fi coverage area.

The **BiDi-WiFi Ext** kit combines the **BiDi-WiFi interface** and **IBT4EXT adapter** to provide fast, stable, and extended Wi-Fi connection — up to **100 m range** — for any control unit with a **BusT4** or **IBT4N** input.

Compact and plug-and-play, it requires no additional power supply and offers a reliable, future-ready solution to manage Nice automations with the **MyNice Pro app**, **MyNice app** and connect it to the **Yubii ecosystem**.

## MyNice Pro App

Configure and assist remotely, ensuring reliable connection at all times.

# We imagined the freedom to explore the world and turned it into a house-system.

Connected, integrated and customisable.  
Safe and easy to use. The smart home system  
is the Nice project that puts the way you want to live  
at the centre of the automation.

Even when you're busy exploring the world.
